
TABLE OF CONTENTS

TOPIC		PAGE
Introduction	Section 1	
BQA Objectives and Certification		1
What's Beef Quality Assurance		3
BQA History		3
Industry Quality Challenges	Section 2	
Quality Assurance of Fed Cattle		1
Quality Assurance of Market Cows and Bulls		2
Drug Residues		6
Injection Site Blemishes and Lesions		11
Carcass Quality Defects		15
Cattle Handling		18
New York State Beef Quality Assurance Guidelines		1
	Section 3	
Management Practices	Section 4	
Biosecurity		1
Individual Identification and Records		1
Judicious Use of Antimicrobials		3
Feeder Cattle Selection Guidelines		4
Implants		5
Feed Source Biosecurity		7
Animal Husbandry Practices		9
Critical Management Points	Section 5	
Putting New York BQA in Action		1
VCPR Form		2
Critical Management Points: Cow/Calf Checklist		3
Critical Management Points: Feedlot Checklist		6
Important Points to Remember		9
Record Keeping Aids	Section 6	
Cattle Health Product Record		2
Group Cattle Health Record		3
Individual Cattle Health Record		4
Mass Medication Pen Record		5
Mass Medication in Feed Pen Record		6
Interaction of Cattle and Public Health	Section 7	
Bovine Spongiform Encephalopathy Fact Sheet		
Salmonellosis Fact Sheet		
Escherichia coli O157:H7 Information Sheet		
Cryptosporidium and Giardia Information Sheet		
Johne's Disease in Cattle		
Anthrax Fact Sheet/Frequently Asked Questions		
Appendix	Section 8	
Beef Quality Assurance Acronyms		1
Beef Glossary		2
Growth Promotant Implants		13
Product Use Appendix		14
ADMUCA Summary		
NCBA BQA Guidelines		
It's Your Product - Injection Site Quality		
NBQA 2000 - National Beef Quality Audit		
NYSCHAP Core Module Information Sheet
